

OMEGA NEBULA BIO 2024

Electronic future-dub duo OMEGA NEBULA are a force. Their music takes the most powerful elements of **dub reggae** and **dubstep** and rolls them into uplifting, emotionally weighted anthems with a unique sonic identity. Taking influence from the **UK sound system scene**, **dub clubs** and **bass driven subcultures**, their huge sound is heart shaking, their message profound, and their energy invigorating.

Multi-instrumentalist **husband and wife duo** Adjua and Dean Forrest, who together fronted eight piece reggae outfit **Backbeat Soundsystem** on **Easy Star Records**, have joined forces to pursue their obsession with **heavyweight bass lines** and **slick digital dub production**. Combining their prolific prowess as masterful songwriters with their rich performance background, these two powerhouses supply an epic **live/electronic hybrid show**, steeped in **euphoric effects**, **live instrumentation**, and **killer vocals**. Producer/Vocalist Adjua's flawless destruction of the fourth wall leaves audience engagement somewhere akin to a rally cry for ravers to rise up and take control, all the while retaining an intimate, personal touch.

OMEGA NEBULA are fresh, exciting and their momentum is unwavering. With world class music that encompasses messages of unity, love, peace and progression, this dynamic duo absolutely cannot fail to win the hearts and minds of the new dub generation and oldschool dub reggae veterans alike.

With continuous support from **BBC DJ's** on **1Xtra** and **BBC 6**, **OMEGA NEBULA** are speedily on the rise and their live show is a must see!

“Uncompromisingly immense” - Chaiwallahs
